â€¢ Security risks, 22 per cent.

<Files\\Processed x Highly relevant\\2024-07-16 - RNZ - AI could soon attend work meet> - § 1 reference coded [4.26% Coverage]

Reference 1 - 4.26% Coverage

He said if people were attending a GP consultation or meeting that was being transcribed by AI, they could ask if the notes were being checked for accuracy, or how they would be stored.
"The key issue for me - from a privacy perspective - is that people are aware of what's being done with their personal information, where it's being stored, whether it's being stored securely, and whether it's being protected from inappropriate access or use."

<Files\\Processed x Highly relevant\\2024-08-25 - STF - Jobseeker interviewed by 100 r> - § 1 reference coded [1.05% Coverage]

Reference 1 - 1.05% Coverage

The EUâ€™s new European Unionâ€™s Artificial Intelligence Act will mandate AI systems used in the workforce comply with transparency and cybersecurity rules.

<Files\\Processed x Highly relevant\\2024-09-21 - RNZ - ACC trial of artificial intell> - § 1 reference coded [1.84% Coverage]

Reference 1 - 1.84% Coverage

A privacy impact assessment was also newly released.
It said the main risk of the tool was privacy breaches of personal information, whether by hacking, because it was inaccurate, or the misuse of it.

<Files\\Processed x Highly relevant\\2024-10-13 - RNZ - Governments Identity Check fac> - § 2 references coded [3.10% Coverage]

Reference 1 - 1.76% Coverage

But as it grew, could Identity Check become a honeypot for hackers, a concern raised in Australia as it makes similar moves? "The security risk changes" in that case, but so far there had been no hacks or

breaches, Waldron said.

Reference 2 - 1.34% Coverage

The bigger goal, however, has been to come up with a single system that spreads the service out while using the sort of decentralised tech that is more resistant to hackers.

<Files\\Processed x Highly relevant\\2024-12-03 - RNZ - Adopting a single AI app for g> - § 2 references coded [5.23% Coverage]

Reference 1 - 1.75% Coverage

Internal Affairs says adopting a single AI app for government would risk having a single point of failure, such as as a hacking target.

Reference 2 - 3.48% Coverage

"We wouldn't recommend that, but Shanghai has 1200 services on one app, as a city," James said. "They instruct all their agencies to turn off their services and channels and everything else and put it onto one place. "But you create a single point of risk and failure."

<Files\\Processed x Highly relevant\\2025-03-02 - RNZ - Kiwi woman hands over biometri> - § 1 reference coded [6.49% Coverage]

Reference 1 - 6.49% Coverage

"There's standard talent contracts, which don't usually allow for this level of likeness being used. So we had to make sure that we work with legal specialists to ensure that we're doing this done the right way to protect ourselves and Liz.
"It would be terrible if the data got into the wrong hands, our security teams have been involved to make sure there is no possibility of data leakage and we don't store her data anywhere where it could be captured by third parties."

<Files\\Processed x Highly relevant\\2025-03-20 - RNZ - Could speed cameras be used to> - § 1 reference coded [2.47% Coverage]

Reference 1 - 2.47% Coverage

If usage is detected, a package of still images and CCTV footage is sent, encrypted, to a Acusensus server on the Amazon Web Services Cloud database. This is in Australia, but once a database opens in New Zealand, the rules call for it to be sent there.
